23. Authorization for this Examiner's amendment was given in a telephone interview with Michael Conger on 3/23/2004.

Please enter the following amendments:

24. Please replace claim 15 as follows:
 15. A DNA construct according to claim 1 wherein the modified T4 nrdA gene is modified such that the ribonucleotide reductase encoded by the unit is less sensitive to allosteric inhibition than the wild type equivalent of said ribonucleotide reductase.
25. Please replace claim 25 as follows:

25 A DNA construct according to claim 24 wherein the *td* gene is located downstream from the modified *nrdA*, *nrdB*, and *nrdC* genes.

Reasons for Allowance

26. The following is an Examiner's statement of reasons for allowance. Although the prior art discloses the T4 *nrdA* gene, the T4 *nrdB* gene, the T4 *nrdC* gene, the *E. coli* uridine kinase gene, the *E. coli* dCTP deaminase gene, and the thymidylate synthase gene of many organisms, the Examiner has found no teaching or suggestion in the prior art directed to a DNA construct comprising a T4 *nrdA* gene comprising the polynucleotide of SEQ ID NO: 9, wherein said T4 *nrdA* gene encodes a ribonucleotide reductase which is less sensitive to allosteric inhibition when compared to the wild-type counterpart of such ribonucleotide reductase due to a modification at the dTTP binding site. Therefore, claims 1-2, 5-8, 10-15, 21, 24-25, 29-37, 40-41, 43-46, 48 directed to (1) a DNA construct comprising a T4 *nrdA* gene comprising the polynucleotide of SEQ ID NO: 9 or a T4 *nrdA* gene modified such that it encodes a ribonucleotide reductase which is less sensitive to allosteric inhibition when compared to the wild-type counterpart due to a modification at the dTTP binding site, (2) the construct of (1) further comprising the T4 *nrdB*, T4 *nrdC*, *E. coli udk*, and/or the *E. coli dcd* gene, (3) an *E. coli* host cell comprising said constructs, (4) the *E. coli* host cell of (3) further modified to display repressed or no uracil DNA glycosylase activity, and (5) a method to produce thymidine by culturing the host cell of (3), are allowable over the prior art of record.

27. Claims 1-2, 5-8, 10-15, 21, 24-25, 29-37, 40-41, 43-46, and 48 are allowed.

28. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
